Subject: Evaluation Letter for the Implementation of the Erasmus+ Project "SUCOMINNO"

Title: Sustainable Communities and ECO-Innovation (SUCOMINNO).

Agreement No: 2023-3-PL01-KA153-YOU-000173576

Reference: Erasmus+ KA153-YOU Project

Period: 2024–2025

Dear OPEN SOUL Coordination Team,

We, the team of **Polychoros Voroklinis**, would like to express our sincere appreciation and provide our **formal evaluation of our participation** in the Erasmus+ project “**Sustainable Communities and ECO-Innovation**” (SUCOMINNO), implemented under your coordination.

As an **official partner from Cyprus**, Polychoros Voroklinis had the opportunity to contribute to the success of this inspiring initiative, and we are pleased to confirm that **our experience as a supporting partner was extremely positive.**

Role and Contributions of Polychoros Voroklinis

Throughout the full cycle of the project, our organization:

- **Supported the preparation and mentoring** of the Cypriot participants selected by us, with a particular focus on young people from rural areas and with fewer opportunities.
- **Facilitated communication** between the project coordinators and our selected participants before their mobility to both PDAs.
- Took part in **preparatory meetings and briefings**, contributing to partner discussions, dissemination strategies, and the exchange of good practices related to sustainability and community involvement.
- Encouraged participants to stay **actively engaged in the non-formal education process**, offering them guidance and reflective tools before and after the activities.

Even though we were **not responsible for hosting any of the PDAs**, we supported the overall implementation by:

- Promoting **intercultural learning** and team spirit among the participants.
- Participating in the **Coordination Committee (CC)** meetings.
- Disseminating the results locally through our community center’s events, website, and youth club.

Evaluation of Coordination and Project Implementation

We are pleased to highlight that **OPEN SOUL ensured clear coordination, responsiveness, and professionalism** throughout the entire project. Communication was fast and transparent, and we always received the necessary tools to support our participants and carry out our responsibilities.

- The **InfoPacks**, shared well in advance for both PDAs, were clear and user-friendly.

- All logistics, travel, and insurance matters were well-coordinated.
- Our participants reported a **very high level of satisfaction** after both PDAs, emphasizing the quality of facilitation, educational methods, and the inclusive atmosphere created by the trainers.

In addition, we appreciate the opportunity to:

- Participate in the evaluation process through online feedback forms and partner reflection spaces.
- Receive regular updates from the main coordinator and partner ACPELIA (responsible for PDA II in Cyprus), ensuring **continuity of support to participants before and after the mobility**.

Impact on Our Organization and Local Community

Thanks to our participation in SUCOMINNO, our youth and staff members:

- Gained new insights into **eco-innovation and sustainability practices**.
- Strengthened their **non-formal learning competences**.
- Became more motivated to initiate local projects with a green focus.

This project has increased our organizational capacity and brought added value to our ongoing work with youth in Voroklini. We have already started discussing follow-up initiatives with other partner organizations.

In conclusion, we would like to **congratulate OPEN SOUL** for designing and delivering such a high-quality and impactful project. Your coordination and support have ensured a **safe, inclusive, and enriching environment** for all participants.

We are proud to have been part of this journey and would gladly collaborate again in future Erasmus+ initiatives.

With appreciation and respect,
For Polychoros Voroklinis,

Stella Komodromou
Project Coordinator
