Evaluation letter

*by the partner organization Youth Leisure Centre,
Ukmergė, Lithuania*

Sustainable Communities and ECO-Innovation (SUCOMINNO) – two part Erasmus+ project, which took place in Area of Klodzko, Poland, 2 to 9 of January 2025 (hosting Organisation Stowarzyszenie "OPEN SOUL" (Poland)) and Pissouri, Cyprus, 11 to 19 of April 2025 (hosting Organisation Active Cypriot Programs and European Learning Into Acceptance, ACPELIA) VŠĮ JAUNIMO LAISVALAIKIO CENTRAS (Non profit organization Youth Leisure centre) was a partner organization in this project and sent 4 participants – youth workers.

The training course SUCOMINNO was a great experience. Thanks to the leaders, everything went smoothly from the beginning and all participants cooperated in a beneficial way. We gained a lot of information by sharing teamwork experiences, to enhance mainly entrepreneurship skills, examples of green innovation and environmental awareness. We learned more about reducing youth unemployment, increasing youth participation in the labor market. We discovered non-formal education methods for green innovation projects or enterprises among partner organizations. We raised our awareness about environmental pollution, we sought to start international cooperation between the partner countries participating in the project.

After returning from the first part of the training, we organized a youth entrepreneurship and green initiatives competition: for two weeks, teams generated ideas, created business plans and prepared presentations. The winning team was invited to participate in the youth exchange "Mental Comfort" in Pissouri, Cyprus.

After the second part of the training in Cyprus, we disseminated the project at a conference organized by the Lithuanian Youth Centers Association and presented the project results and ideas generated by it to fellow youth workers in Vilnius.

We are looking forward to future collaborations with ACPELIA.
